"must be kept as a bastion of democracy," said the speaker. She said that like most visitors she thought there were probably some "easy answers" to India's poverty, but found out this is not so. Among her slides were pictures of women using sewing machines. "These are the lucky ones," she said. "They earn eight cents a day instead of four cents a day as their sisters do sewing by hand."

Specire of Communism

"India demands our attention", said Dr. Pannell." The spectre of international communism is rightly haunting us day and night".

Mankind's fate for the next generation will depend on the relationship of our country and the newly developing nations," she said.

Sweet Briar President Terms India Our "Greatest Ally"

The president of Sweet Briar College, Dr. Anne Gary Pannell, spoke to Woman's Club members and their guests Monday evening about India, based on observations made during two extended visits to that country.

Guests of the club included a number of county teachers who were invited to a reception following Dr. Pannell's address. Hostesses were Mrs. Hoskette B. Martin, Mrs. Jerry A. Burke, Mrs. L. E. Thomas, and Mrs. Charles R. P. Crawley. With the college president were three Sweet Briar students. Two selections by Handel were sung by Miss Alice McDowell accompanied by Miss Pamela Rutledge. Miss Margaret Williams assisted Dr. Pannell in showing colored slides of scenes in India.

"Greatest Ally In Asia"

Dr. Pannell termed India our "greatest ally in Asia." She said that India is trying to solve her problems by democratic means, and that other developing countries of Africa, and Asia are watching India closely to see how that country's efforts work out. "As a historian, I am interested in seeing how India adopts Western ideas and adapts them to the East," said Dr. Pannell.

She spoke of India's bicameral legislature and independent Judicial system as bulwarks of India's democratic efforts. India has a Bill of Rights and adult suffrage, she said.

Contrasts between India and the USA are "almost overwhelming", said Dr. Pannell.

She said that in one stretch of road leading from the airport on which they landed there were one million people homeless, living day and night on the streets. "We're not used to seeing one million people performing in the roadway every function known to humans and at the same time making way for the sacred cow".

Asked why she decided to vote this time, she replied, "I wanted to make sure that Mr. Abbitt wins." Farmers' Census Will Begin Nov. 16

Questionnaries for the 1964 Census of Agriculture are now being mailed out to farmers of Appomattox County, County Agent Jim Smith reported today.

The forms are expected to reach the farmers within a few days. This will allow farmers a period of time to consult their 1964 business records in order to answer questions on the forms before census enumerators begin calling on the farmers to collect the forms. Best estimates for the year will be sufficient to answer questions in cases where complete records for the year are not available, according to the county agent.

The visits by enumerators will start on November 16, in this county, according to the county agent.

Enumerators will call on every farmer in the district under his or her supervision, the county agent explained.

The Census of Agriculture is taken every five years in the years ending in "4" and "9" to gather needed, up-to-date information on U. S. agricultural resources and production. Data gathered include the number and size of farms, number of persons living on farms, acreage and harvest of crops, a livestock and poultry inventory, information of farm equipment and facilities and on income and some production expenditures.

First Aid Kits Go On Sale

G. L. James, county Farm Agent, has announced that county 4-H boys and girls are selling First Aid kits. Local business firms are stocking the kits and the price is just $1.00.

They're useful for a glove compartment in an automobile, for home, camp, or hiker's pack. Bandaids, gauze, burn ointment, antiseptic, even soap, are all included.

Proceeds will help to send the boys and girls to state meetings, to camp, and will provide 4-H uniforms for local delegates to out-of-town meetings.

A First Aid kit when you need it— is indispensible. It may well be the best $1.00 you spend this year.

Overseas Campaign

Dark Leaf Cigar Promotion Planned

An advertising program to enlarge the market area in Germany for the Virginier cigar is planned for this fall.

The Virginier cigar is made in Munich, Germany, by the Austrian Tabakawerka, entirely of Virginia dark-fired tobacco.

About ten million of these cigars are made each year and practically all of these are now sold in the State of Bavaria, of which Munich is the capital.

The objective of the promotion program is to expand the market for this cigar into the State of Hesse, which includes Frankfort, Weisbaden, and Dusseldorf.

All-Out Effort

The program will include newspaper advertisements, billboards, counter displays, television spots if available, and personal calls on wholesalers and retail outlets in the new market area. It is being financed jointly by the manufacturer, the Virginia Dark-Fired and Sun-Cured Tobacco Export Association and the Foreign Agricultural Service of the USDA. Financing will be shared about equally by German and U. S. interests.

The promotion will be under the personal supervision of Dr. Lothar Kloimstein, president of the Austrian Tabakawerke in Munich. Roy B. Davis, Jr., Tobacco Marketing Agent for the Department, visited Dr. Kloimstein in Munich last December to make final arrangements for the promotion program.

Sales Hike Seen

He reports that Dr. Klomstein was keenly interested in this project and quite optimistic that this joint effort would substantially increase the sales of this cigar and provide a larger outlet for Virginia dark-fired tobacco growers.

This cigar is handmade from the top grades of thin leaf Virginia dark - fired, commonly known as "Austrian wrappers." The filler, binder, and wrapper all come from the same leaves.

The tobacco is first soaked in water for about 24 hours. Wrappers are then cut from the best sections of the leaves. Those leaves that are not quite good enough for wrappers are used for binders. Scraps that remain after cutting out the wrappers and binders become filler. After drying, the tobacco is remoistened to the desired level for rolling.

The finished cigar consists of
